After agreeing to the Terms and Conditions and clicking to continue to the next step, you can then start the upload your own picture or choose one from the catalog process.

Design

On this step, select an image to be your card’s background.

There are two options:
1) Upload a digital image from this computer.
2) Choose an image from our online catalog.

Note: Uploaded images should be JPEG, GIF, TIFF or bitmap files. The larger the image, the better. Image size should be at least 480x480 pixels, although the larger and higher resolution of your image, the better your card will appear when printed.
Using the select from catalog link will get you to the catalog of images available, or if you would like to upload your own image, you simply click on the Upload and Image button.
If you upload your own image, you will be given an opportunity to crop and maneuver the image so what is important shows in the available space for the image (catalog images cannot be maneuvered). See an example below.
